FEST

experience for future

1

Strandmøllen AB – Ljungby / Sweden

- Application:** Container/trailer filling for the refueling of heavy commercial vehicles
- Product:** gEI600
- Performance:** 3 MW, 600 Nm³/h
- Scope of delivery:** Power container, PtG container, cooling and refrigeration unit
- Commissioning:** Q3 2023

2

Norwegian Hydrogen AS – Hellesylt / Norway

- Application:** Trailerfilling, Refueling Station
- Product:** gEI600
- Performance:** 3 MW, 600 Nm³/h
- Scope of delivery:** Power container, PtG container, cooling and refrigeration unit, two compressors (type 2.0), Dispensers for 350 and 700 bar
- Commissioning:** Q2 2024

3

Wiener Wasserstoff GmbH – Vienna / Austria

- Application:** Energy source and fuel for city buses with fuel cell electric drive
- Product:** gEI600
- Performance:** 3 MW, 600 Nm³/h
- Scope of delivery:** Power container, PtG container, cooling and refrigeration unit, refueling solution
- Commissioning:** Q2 2024

4

AWG Wuppertal – Wuppertal / Germany

- Application:** Refueling of buses
- Product:** gEI400
- Performance:** 2 MW, 400 Nm³/h
- Scope of delivery:** Power container, PtG container, cooling and refrigeration unit, compressor, high pressure accumulator, refueling system
- Commissioning:** Q2 2024

References

Updated January 2026

5

Infraserv GmbH & Co. Höchst KG – Frankfurt / Germany

- Application:** Refueling trains with fuel cell drives
- Product:** 2 x gEL300
- Performance:** 2 x 2.5 MW, 1000 Nm³/h
- Scope of delivery:** 2 x Power container, 2 x PtG container, cooling and refrigeration units, rectifier with medium-voltage transformer, water treatment & gas drying
- Commissioning:** Q2 2024

6

Turneo GmbH – Cuxhaven / Germany

- Application:** Container/trailer filling for refueling ships
- Product:** gEI400
- Performance:** 2 MW, 400 Nm³/h
- Scope of delivery:** Power container, PtG container, cooling and refrigeration unit, water treatment & gas drying compression, refueling system
- Commissioning:** Q4 2023

7

ABO Energy – Hünfeld-Michelsrombach / Germany

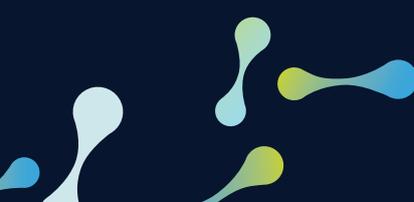

- Application:** Refueling of trucks and buses
- Product:** gEL 400 + gEL 600
- Performance:** 2 + 3 MW, 1000 Nm³/h
- Scope of delivery:** 2 x Power container, 2 x PtG container, transformer, re cooler, refrigeration unit
- Commissioning:** Q2 2025

8

Robert BOSCH GmbH – Bamberg / Germany

- Application:** Pilot outdoor electrolysis system, factory H₂ supply, endurance testing of mobile fuel-cell stacks
- Product:** gEI500
- Performance:** 2,5 MW, 500 Nm³/h
- Scope of delivery:** Power container, PtG container
- Commissioning:** Q4 2025

9

Stadtwerke Düsseldorf AG – Düsseldorf / Germany

Application: Refueling cars and trucks
Product: gEI400
Performance: 2 MW, 400 Nm³/h
Scope of delivery: Power container, PtG container

Commissioning: Q3 2026

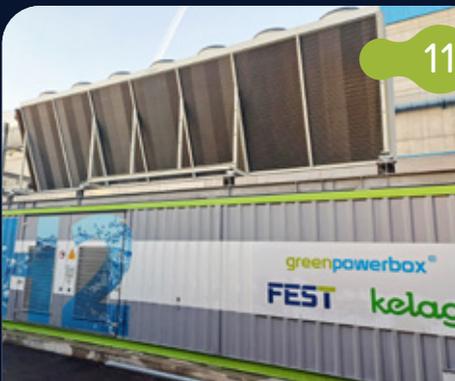

10

Stadtwerke Stuttgart GmbH – Stuttgart / Germany

Application: Supplying Stuttgart with green hydrogen via hydrogen pipeline and trailer, as well as applications in industry, for heat supply, and for bus and heavy-duty transport

Product: 3 x gEI600
Performance: 3 x 3 MW, 600 Nm³/h
Scope of delivery: Power container, PtG container, heat recovery unit
Commissioning: Q1 2027

11

Kelag – Villach, Kärnten / Austria

Application: Supply of Carinthia's bus fleet
Product: gEI400
Performance: 2 MW, 400 Nm³/h
Scope of delivery: Power container, PtG container

Commissioning: Q1 2026

12

Entega AG Darmstadt – Darmstadt / Germany

Application: Mobility applications, Refueling of buses
Product: gEI600
Performance: 3 MW, 600 Nm³/h
Scope of delivery: Power container, PtG container

Commissioning: Q1 2027

Continuous implementation of hydrogen projects through Europe

16 gEL-Series Plants

41,5 MW total
